

Extreme Risk Laws Education / “Pause to Heal”
Suggested Social Copy: Illinois-specific
2025

- Each year, firearm injuries affect too many lives in the state of Illinois. By temporarily removing access to firearms, Firearm Restraining Orders can give a person in crisis the time they need to heal. Yet not enough people know about these life-saving tools. We're honored to uplift an innovative partnership to raise awareness of this intervention resource in Illinois. Learn more about these lifesaving tools, visit Illinois.gov/PauseToHeal.
- We're supporting @AdCouncil, @Bradybuzz and @IllinoisDPH to raise awareness of life-saving Firearm Restraining Orders in Illinois. These temporary intervention tools prevent tragedy by helping someone in crisis “hit pause” away from a firearm to heal. To learn more, visit Illinois.gov/PauseToHeal.
- From @AdCouncil, @Bradybuzz and @IllinoisDPH, these PSAs raise awareness of life-saving Firearm Restraining Orders (FROs) in Illinois. These PSAs show how FROs can protect people from firearm injuries and preventable tragedies. Visit Illinois.gov/PauseToHeal to learn more about these life-saving intervention tools.
- When someone is in crisis, time and space can make all the difference in preventing tragedy. Firearm Restraining Orders do just that. They temporarily put space between an individual in crisis and their firearm, giving the opportunity to “pause to heal.” That’s why we’re uplifting PSAs created for Illinoisians to raise awareness of this important tool. Learn more at Illinois.gov/PauseToHeal.
- @AdCouncil, @Bradybuzz and @IllinoisDPH are educating Illinoisans about temporary Firearm Restraining Orders (FROs) to help save lives in Illinois. To learn more about how FROs can keep communities safe, visit Illinois.gov/PauseToHeal.
- In the United States, over 48,000 people die from firearm injuries annually. Extreme Risk Protection Orders – called Firearm Restraining Orders in Illinois - can be a critical tool in helping prevent these deaths. Learn more about these life-saving intervention tools at Illinois.gov/PauseToHeal.
